Field-wide recurring roots (Stage 2F integrative output, 9-paper corpus)
IP-1
Catalytic cycle proposed without elementary-step validation
9/9 papers
IP-2
Quantitative analytical basis for primary data underreported
9/9 papers
IP-3
Self-contradictory absence (observable predicted but not tested)
9/9 papers
IP-5
Benchmark superiority asserted without matched-pair comparison
7/9 papers
